Light of the World
FOUNDATION

Dear ones

„Grace to you and peace from God our Father and the Lord Jesus Christ" (2 Thessalonians 1:2)

We have remained only with a few days to complete year 2025 and I always wonder how fast the time goes from January to December.

Not long ago we were preparing for new Academic year 2025 , now we are preparing again but for 2026.

All in all we want to give a tremendous gratitude to God who has been with us though out helping to accomplish another year.

Our graduation took place on 26th of October. There were 27 little angels who graduated from kindergarten, they will begin their grade 1 class at primary level in January 2026.

On the other hand, 12 children who have completed their junior level at Light of the World Academy now are seeking for new schools to continue with their education. We pray for their families as they look for the provisions to meet their needs.

The ceremony has been successful, the parents and guardians of graduates came to join us in the celebration.

The best students have been rewarded.

The teachers who have stayed with us for a longer period have been acknowledged for their loyalty, as well rewarded . We believe this small act will encourage and motivate other teachers to do the same.

After the graduation we had organized a workshop for our teaching staff. Each teacher had a chance to upgrade their skills and learn new

things. We also had a lot of fun during team building workshop.

During this holiday, some of the teachers led VBS for our students.

We had 80 children who had participated in those activities. Children were not only worshipping and praising God, memorising the scriptures but also hearing the Word of God though out. Looking at the heroes from the Biblie by putting God first in their lives - it encouraged them and their lives have been transformed.

We also have two goal-oriented girls (Esther and Naomi) who shows interest in sewing. This time round they were working passionately on these waist bags These girls have learned skills that can enhance them to do future tailoring courses and set for a small micro-business to sustain their lives. Hence, we pray for God's provisions in their further education in the field of their interests.

This holiday as always has been busy. The teachers have been working on the preparation for their lessons plans. We managed to do some repairs in classes, offices (fixing floors, blackboards, lights, roofings where some leakages accured etc). As students are increasing, more desks and chairs had to be purchased. New books have been published by the ministry too, and we are grateful we managed to get some of them.

Though the holiday is here, we barely get time to rest, but never the less, we are very excited to continue doing God's work.

We had already some new children who had looked for a place at our school, but we were not able to receive them all since our aim is to focus on quality not quantity. Some of the classes are too full to accomadete more kids. Hovewer, we hope and pray that those who are with us after they complette the education at Light of the World remain to shine their lights in the new places.

Our farm is moving in the right direction.

The animals have been moved to a new place. Some few jobs still need to be done, but slowly with time we shall manage to complete all. We already see more eggs which have been laid and that brings joy to our hearts. Knowing

that the chicken and turkeys will increase in number makes us glad because the children will not only enjoy their meals from the farm, but also learn new skills during agricultural science. This project is mostly a practical learning tool for work and responsibility for one to practice his patience and care for something to be achieved. Vision and persistency will help one to move forward.

Our Auditorium project finally got someone to work on the roof. Work is in progress, glory to God. We are very happy to see things moving step by step. Things cannot always go with the speed we wish to, but with God's grace we are able to adjust.

The hot season is here.
This means only one thing - the rains are very rare.

The borehole at the school is helping us to serve water for the community.

We offer water daily at a low fee. On the other hand, every Tuesday we give water freely to anyone in need.

Christmas is just at the corner. Seasons like this, people usually celebrate with their loved ones of course. Therefore, many families still are going to struggle financially. To many, that day is no different. However, we identified some of them and blessed them with a small gift which will help them in preparation for Christmas meals.

Paul is writing in **Acts 20:35: "In all this I have shown you that by working hard we must help the weak, remembering the Lord Jesus' words: 'It is more blessed to give than to receive'"**

Knowing that, **God who is the same yesterday, today and forever - (Hebrews 13:8)** - is able to do wonders in our lives even today if we only allow Him to do so.

We are thankful for your continued prayers and support. May our loving father reward you abundantly.

Those who are preparing to come over to help us, we uplift you in prayers. May God provide for all your needs and may He be the One guiding your steps.

We wish you a Merry Christmas and happy New year.

Henry I Mirka with a familly.
